# Jonay Contreras Rodríguez

Full Stack Developer · JonayKB

Tenerife, Spain · jonaykb@gmail.com · +34 648742361
me.jonaykb.com · github.com/JonayKB · linkedin.com/in/jonay-contreras-rodriguez

## PROFESSIONAL SUMMARY

Full Stack Developer with professional experience at Dst Factory (Tenerife), building Spring Boot REST backends and Angular / React frontends with Redis caching, OAuth2 + JWT security, Docker, and automated testing (unit and Cypress end-to-end). I also develop desktop applications (Tauri / Rust) and embedded systems (ESP32, Arduino, Raspberry Pi). I deliver complete personal projects from backend and database design to CI/CD with GitHub Actions and deployment.

## TECHNICAL SKILLS

**Languages:** Java, JavaScript, TypeScript, Rust, PHP, Python, HTML5, CSS

**Frontend:** React, React Native, Angular, Astro, Tailwind CSS, Bootstrap

**Backend & APIs:** Spring Boot, Spring Security, Spring Data, Hibernate, Node.js, Django, Laravel, REST, GraphQL, SOAP, OAuth2, JWT, Flyway

**Databases:** MySQL, PostgreSQL, Redis, Neo4j

**DevOps & Tools:** Docker, Git, GitHub Actions (CI/CD), Nginx, PM2, Postman, Swagger, SonarQube, Cypress, JUnit / Mockito (unit testing)

**Embedded & Desktop:** Tauri, Rust, Arduino, ESP32, Raspberry Pi, MicroPython, KiCad

## WORK EXPERIENCE

**Full Stack Developer** — Dst Factory
*Tenerife, Spain (hybrid) · Jun 2026 – Present*

- Spring Boot backend development with Flyway migrations, OAuth2 + JWT security, Redis caching, Docker containerisation and unit testing.
- AngularJS frontend with route guards, routing and integration with the Spring Boot REST API; Docker, unit testing and Cypress end-to-end tests.
- Raspberry Pi setup with a QR reader and a status display circuit, using MicroPython and Arduino.
- Collaboration with a multidisciplinary team across the full development lifecycle in a hybrid environment.
- Occasional use of AI tools as support for design and documentation.

**Full Stack Developer (Internship)** — Dst Factory
*Tenerife, Spain (hybrid) · Feb 2026 – Jun 2026*

- Spring Boot backend with Flyway migrations, OAuth2 + JWT security, Redis caching, containerisation and unit testing.
- AngularJS frontend with route guards, routing and Spring Boot REST API integration; Docker, unit testing and Cypress e2e.
- Raspberry Pi setup with QR reader and status display circuit using MicroPython and Arduino.
- Internship in a hybrid environment, collaborating across the full development lifecycle with a multidisciplinary team.

**Frontend Web Developer** — Emergency Rescue & Response Corps
*Malta · Mar 2025 – May 2025*

- Frontend development with React, using an architecture based on reusable components.
- Led project organisation and task distribution within the team.
- Collaborative workflow through pull requests (branching and merging).
- Deployment of static and dynamic applications.

## PROJECTS

**KB Slot Engine** — slot-engine.jonaykb.com

- Full-stack application for managing slot car rallies: cars, pilots, lap times, live standings and PDF / Excel scoreboard export.
- Spring Boot REST backend with Redis caching, Flyway migrations, Server-Sent Events for live updates and JUnit 5 / Mockito test coverage; React + TypeScript desktop client built with Tauri.
  **Stack:** Java, Spring Boot, Redis, Flyway, React, TypeScript, Tauri, Rust, Docker

**Routine Fights** — Aug 2024 – Present · github.com/jonaykb/routine-fights

- Gamified productivity platform that fosters healthy habits through social competition and real-time goal tracking.
- Hybrid API: GraphQL for client data fetching, REST for authentication and file management, SOAP for reporting; Neo4j graph database for followers, interactions, streaks and subscriptions.
- React Native mobile app and React admin dashboard; Docker deployment, CI/CD with GitHub Actions and SonarQube code quality checks.

  **Stack:** GraphQL, REST, SOAP, Neo4j, React Native, React, Docker, GitHub Actions, SonarQube

**LocalShopSystemV2** — Jul 2024 – Present · github.com/jonaykb/LocalShopSystemV2

- Store management and cash register system (inventory, sales and analytics) built for a local shop in Puerto de la Cruz.
- Spring Boot, Hibernate and Spring Data backend with MySQL, deployed on Tomcat; ESC/POS receipt printing; React public website and admin panel.

  **Stack:** Java, Spring Boot, Hibernate, Spring Data, MySQL, Tomcat, React

**KB MC Launcher** — kb-launcher.jonaykb.com

- Custom Minecraft modpack launcher for the MCKBServers community: Microsoft OAuth2 login (Xbox Live / Minecraft token chain), parallel asset downloads with retry logic, system tray and multi-platform CI/CD with GitHub Actions.

  **Stack:** Tauri v2, Rust, React, GitHub Actions

**RacingTerminal** — hardware project

- ESP32-based terminal for a slot car racing system: KiCad PCB design (IR barrier sensor, MOSFET and relay circuits) and firmware with FreeRTOS tasks, NFC / keypad input, LCD display and REST API integration with retries.

  **Stack:** ESP32, Arduino C++, FreeRTOS, KiCad, I2C

**Other projects: KB Discord Bot** — Discord bot for community management and event confirmations (github.com/jonaykb/KB_Discord_Bot). **Cuidado Plantas** — social network built with Laravel for sharing plant care (github.com/jonaykb/CuidadoPlantas-JonayContreras).

## EDUCATION

**Higher Vocational Training: Web Application Development (DAW)** — IES Telesforo Bravo
*Puerto de la Cruz, Spain · Aug 2025 – Jun 2026 · EQF level 5*

- Modern web architectures, Nginx server management and advanced frontend development.

**Higher Vocational Training: Cross-Platform Application Development (DAM)** — IES Telesforo Bravo
*Puerto de la Cruz, Spain · Sep 2023 – Jun 2025 · EQF level 5*

- Robust API creation (Spring, Hibernate), native Android development and deployment automation.
- Languages and tools: Java, PHP, JavaScript, TypeScript, HTML5, CSS, Spring, Laravel, MySQL, Git, GitHub Actions, SonarLint, Swagger.

**Scientific and Technological Baccalaureate** — IES Villalba Hervás
*La Orotava, Spain · Sep 2021 – May 2023*

## LANGUAGES

**Spanish:** native. **English:** B1 (listening, speaking, reading and writing).

## ADDITIONAL INFORMATION

- **Soft skills:** teamwork, fast learner, self-directed learning, organisation and punctuality.
- **Interests:** photography, video game development, self-hosted infrastructure.
- **Driving licence:** B (Spain).
